

Tommy Arnulf

Special Counsel

Tommy Arnulf's work mainly relates to contract law, in particular projects across the infrastructure and renewable energy sectors.

Tommy has extensive experience with large-scale projects within the renewable energy sector, including solar PV, wind, battery storage (BESS), bio-LNG plants and hybrid renewable energy projects. He also has significant experience within infrastructure projects related to road and railway, ship tunnel and water infrastructure (e.g. PPP). Beyond assisting clients in Norway, his experience includes projects in Europe, Africa and South-America.

He also has considerable experience with fabrication contracts and gas sales contracts.

Tommy has in-depth knowledge of various standard contracts commonly used within various industries both in Norway and internationally.

Besides advising Tommy has considerable experience with negotiations and dispute resolution in complex projects, assisting both Norwegian and international clients before ordinary courts and arbitration tribunals.
